

# STRIVING TO OFFER PRODUCTS TO SUIT CUSTOMER NEEDS

- STRETCH FILM
- AIR BUBBLE FILM
- EPE FOAM
- XLPE FOAM
- EVE FOAM
- VCI SHEETS
- EPDM
- SEALANTS

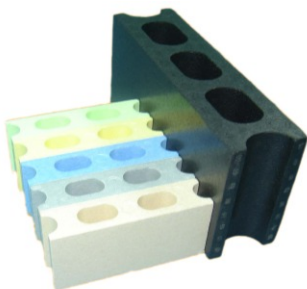

- BACKER RODS
- EPE TUBES
- ADHESIVES TAPES
- TARPAULINS
- PUFF SHEETS
- SAFETY NETS
- GEO FABRICS

- CONSTRUCTION ADHESIVES
- INDUSTRIAL ADHESIVES
- THERMOCOLE (EPS)
- AGRO SHADE NETS
- CORRUGATED PAPERS
- SPECIAL PAPERS
- CUSTOMIZED PACKAGING

## G.K. UDYOG

ONE STOP FOR PACKAGING SOLUTIONS

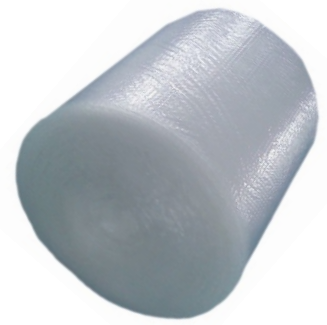

## Air Bubble Film

We are the Distributors of "SUPREME" Air Bubble Film Roll and bags that are fabricated in our factory in conformation to international standards. These are widely used for packaging purposes and are tailored as per the client requirement. Our exclusive range has two layers of low-density polyethylene (LDPE) sheets that offer cushioning by entrapping air in between. These rolls are in high demand in the domestic market and provide optimum protection of the packaged consignments from dents and scratching in transit and internal movements.

### Specifications

- Width: 1.0meter / 1.5 meter / 2.0meter in GSM ranging from 40GSM (200 Gauge) to 140 GSM (600 Gauge)
- Standard length: 100 meters
- Air bubble pouch / bag / cut piece
- Air bubble box type bag
- Also Specially laminated grade with aluminum foil / EPE foam / LDPE film

## Foam

### ENGINEERED FOAM PRODUCTS

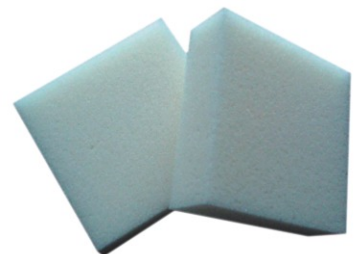

G.K. Udyog is happy to provide packaging protection for your products. We design and manufacture a custom packaging solution for you.

Our diversified capabilities with engineered foam include:

- Our experienced and resourceful staff considers your ideas from the early design stage through to full production
- Product and application knowledge provide the most dynamic packaging design solutions
- We will construct fabricated foam prototypes to produce the optimum design for your product
- Polyethylene, urethane and EPS are among the many products used to develop packaging for your specific needs

**Our Foam Products Includes:** Expanded Polyethylene Foam (EPE), EPE Sheets, EPE RODS AND TUBES

We also offer customized pouches in various sizes for industrial and other packaging. Anti Static pouches for electronic equipment is also available. We do small orders too.

## XLPE / EVA Foam

Cross Linked PE is smooth and flat surfaced. It has excellent mechanical properties. It is extremely resilient, with high load bearing capacity. It has good dimensional stability.

Cross Linked PE is available in a large number of grades with varying density, shore hardness and other mechanical properties. Sheet size is available in various thicknesses ranging from 2mm to 100mm. Standard size of the sheet is 1000mm x 2000mm

## Paper Rolls

From corrugated paper to a range of kraft rolls and waterproof papers, G.K. Udyog also provides a selection of paper packaging products.

- Single Faced Corrugated Paper
- Kraft Paper Sheets & Waterproof Paper Rolls

**Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.**

## Stretch Film

We offer high performance, machine grade and manual grade stretch films provide both high strength and high stretch. Our Stretch films are 3 layer and 5 layer films. They're specially manufactured to stretch up to 300%, depending on the gauge. This enables more pallet loads per roll to be wrapped, using less film, resulting in the lowest cost per load. With high performance film, the more it is stretched, the more the film recovers to hold loads tight and prevent product damage.

### Unique features

- Accurate cross-linked adhesiveness
- Grants internal molecular strength and elasticity
- Does not allow any molecular distortion during succeeding operations
- Makes the adhesive to last longer.
- The quality base film makes it split resistant along the cartons center seam

## Tapes

Self Adhesive BOPP Tapes are available in many sizes and colours to meet the customer needs. Printed tapes are also available on demand.

Biaxially Oriented Polypropylene (BOPP) Film coated with acrylic based adhesive in different micron (gsm) coating thickness. The BOPP tape is available in different colours. BOPP tape is used in carton box sealing and for stationery purpose. Printing of single and multiple colour is also possible with logo or customized design.

## Adhesives

### Physically Hardening Adhesives

- Drying Adhesives
- Contact Adhesives
- Hot Melt Adhesives
- Pressure Sensitive Adhesives (PSA)

### Chemically Hardening Adhesives

- Polyurethane Adhesives
- Epoxy Resin Adhesives
- Anaerobic Adhesives
- Cyanoacrylate Adhesives
- Silylated Polymer Adhesives
- Silicone Adhesives

## Thermocole / EPS

EPS (Expandable Polystyrene) is a petroleum by-product and is a polymerised version of Styrene monomer. After Polymerisation, a blowing agent called pentene is added to make it expandable. EPS comes in various bead sizes and is spherical and almost transparent with approx density of 750-760 kg/m<sup>3</sup>. EPS is available in two grades, namely

- Normal Grade
- Self Extinguishing Grade (Fine Retardant Grade).

### EPS AS PACKAGING MATERIAL

EPS is widely used as a packing material as it is a very good shock adsorbent and is very cheap, and hence is almost in substitutable. It's application field is very wide and is used as a packing material in home appliances and other items.

**EPS Packaging:** EPS Loose Fills, EPS Balls, EPS Insulation Sheets, EPS Blocks, EPS Pallets/Thermocole Pallets, EPS Pipe Section / Thermocole Pipe Section, EPS Sandwich Panels

**Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.**

## Strapping Rolls / Clips

Polypropylene tensional strapping is a safe and secure method of sealing your boxes or securing your pallets. Hand strapping is available either on a cardboard core or a plastic reel, and we also offer a wide range of machine strapping for customers with semi or fully automatic strapping machines.

### Strapping Accessories

- Seals and Tools suitable for standard 12mm strapping
- Tensioner tightens and cuts strap
- Sealer used in conjunction with tensioner, secures the strap by crushing seal
- Combination Tool tensions, seals and cuts strapping

## VCI Films

We deal in VCI (Volatile Corrosion Inhibitors) Films & VCI Pouches that are ideal for protecting iron and allied materials from rusting. These are offered in customized form adhering to the designs and specifications of our esteemed clients and are in high demand in the domestic front. These are available in different customized sizes.

### Application

- Anti-oxidation and anti-static packing for all kinds of precise electronic parts and components and for integrated circuit and semiconductor products
- Anti-oxidation and anti-static packing for printed circuit board
- Anti-Oxidation packing for electronic measuring instrument.
- Corrosion preventive packing for all kinds of precision hardware components
- Corrosion preventive packing for all kinds of auto parts and accessories
- Anti-Oxidation packing for all kinds of silver / copper / tin decoration and manufactured goods, high end K-gold jewelry
- Anti-Oxidation packing for all kinds of silver / gold and copper industrial products.

## Anti Static Materials

An electrostatic discharge (ESD) is an electric current driven by an excess electric charge stored on an insulating object. The term is usually used in the electronics and other industries to describe momentary unwanted currents that cause damage to electronic equipment.

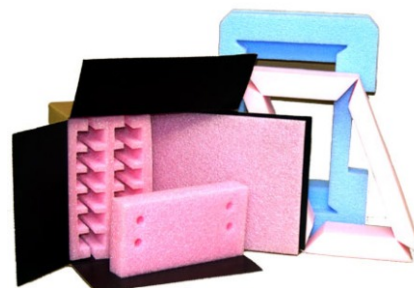

Fortunately, at G K Udyog we offer a number of effective solutions. Our Antistatic air bubble polythene bags & pouch offer the best protection currently available in the market. Also Antistatic EPE sheets are also available in rolls and customized pouches.

## Sealants / Adhesives

G.K. Udyog has an adhesive or sealant for a wide variety of construction applications. And with many of these applications, you can choose from a few different products, with options offering good/better/best properties.

In the Construction field, G.K. Udyog offers the following range of products:

- Floor Preparations and Soft Floor Covering Adhesive
- Wide Range of Parquet Adhesives
- Wall Paper and Wall Covering Adhesives
- Tile Adhesives & Resins
- Wood Working Repair and Assembly
- Sealants, Foams and Building chemicals
- Concrete repair and maintenance and Industrial maintenance / engineering

**Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.**

## Safety Nets

Garsafe Safety Nets are manufactured out of State of Art Machine Made Nettings made out of HDPE / Nylon in Twisted and Braided constructions meeting International Standards with a combination of Garfil Industrial Ropes at the Border for Garfil Shock Absorption. These nettings are heat set, dimensionally stable and does not loosen to give extra safety and protection to the Men & Material while working in heights for Construction Industry, Infrastructure Projects, Ship Repairing in the Mid Sea etc. The above nets are also tested on a 12 meter drop in a Test Rig, a unique Testing facility available with GWRL in India for Testing Safety Nets.

Tailor Made Dimensions of different sizes can be made available as per the customer's site needs.

## Expansion Joint Filler

### EPE FOAM

Polyethylene foam expansion / isolation joint material EPE Foam Plank is an expansion joint filler material. It is used in lieu of asphalt impregnated fiberboard material when no sealant or cold applied sealants are specified.

### EPE Foam

- Is extremely durable, flexible, lightweight, easy to use and handle.
- Is extremely compatible with the price of fiberboard and is less expensive when a caulk joint is required.
- Is an excellent choice for creating the perfect caulk joint.

### Polyethylene Backer Rod

Polyethylene Backer Rod has a variety of uses including expansion joints, window and door applications, pavement joints and curtain wall joints. It is available in diameter from 1/4 - 4".

### Features

- Closed-cell extruded low density Polyethylene Foam.
- Flexible and compressible for ease of installation.
- Non-absorbent and Compatible with most cold sealants including Polyurethane, Butyl, Silicone, Polysulfide and Acrylic.

### XLPE SHEETS

XLPE Board is a Pre-moulded Compressible Filler Board, high performance closed cell joint filler material available in board form. It is suitable for use as expansion joint filler in concrete, brick, block work and isolation joints, where readily compressible low load transfer joint filler is required.

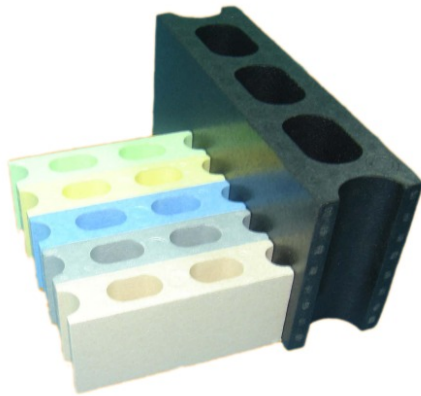

### Application

- Structural expansion joints in concrete brick and block work.
- Isolation joints to infill panels.
- Bridge decks, abutments, pier hinge joints, etc.
- As a backup support for sealant.
- Expansion joints in concrete highways, airport terminals & taxi tracks, etc.
- Expansion Joints in Parking areas, Industrial flooring, etc.
- Water retaining & water excluding structures.

## Silica Gels

We sell different formulations of Silica Gel that are extensively used as desiccant and adsorbent in different industrial and consumer applications. These can also be modified to suit different process conditions and varying humidity operation requirements. The color of Silica Gel changes from blue, orange, yellow to different colors on being exhausted.

**Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.**

## Tarpaulins

### "GEEKAY PLAST" HDPE TARPAULINS

These tarpaulins are of great value and is the perfect way to quickly cover an item or surface you need to protect. Whether used on trailers, as ground sheets or general vehicle cover, you can be sure this item will always deliver the results you require.

#### Product Specifications

- Reinforced rope inside a welded hem
- Rust resistant grommets on both sides & corners
- Polyethylene coating on both sides & corners
- U.V.I Resistant treatment
- Heat sealed Seams

#### Uses

General Cover; tent fly, car cover, timber cover, machine cover, canopy, camping ground sheet, windbreak, privacy wall, picnic mat, roof rack protector, dust sheet, boat cover, pool cover etc.

#### Colours

Ready stock of BLUE, YELLOW, ORANGE, WHITE, SILVER. Other Colors can be manufactured on request.

#### Ready made sizes available

12' x 9'	15' x 12'	18' x 12'	18' x 15'	24' x 18'
30' x 18'	30' x 27'	40' x 30'	60' x 30'	60' x 40'

**Customised Sizes can be manufactured and delivered in 1 Day.**

### SILPAULIN

SILPAULIN is made from cross laminated plastic film - a revolutionary concept in the evolution of the plastic films. Manufactured by The Supreme Industries Limited "XF Division" using state of the art technology - limited to only few companies in the world in technical collaboration with RPD Rasmussen Polymer Development AG Switzerland.

## Nylon / Polyester Tarpaulins

We produce synthetic coated fabrics using high performance Polyester/ Nylon based fabric with a unique PVC formulation in specially designed machines. The company offers a wide range of fabrics from 350 gsm to 1500 gsm in coating thickness from 0.3 mm to 1.5 mm over 100 attractive shades. SRF is the only integrated manufacturer right from polyester yarn to fabricated articles.

The coated fabrics are available in wide range of colors and as well as double side or single side coated as desired by customers. We also offer high UV stability and flame retardant fabrics. The company has the capability to match exact shade requirements of the customers.

#### Features

- Waterproofing
- Breaking Strength
- Tear Strength
- Flame Resistance
- UV Stability

#### Applications

- |                 |                           |
|-----------------|---------------------------|
| ● Tarpaulins    | ● Ducting Fabrics         |
| ● Hanger Covers | ● Biogas Bags             |
| ● Awnings       | ● Pond Liners             |
| ● Pitch Covers  | ● Container Cover         |
| ● Aqua Barrier  | ● Upholstery Applications |

**Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.**

## Building Insulation

We have developed customized solutions specifically for the construction requirements of various industries. All our products have been developed after continuous interaction and understanding the needs of the changing demands of the new generation equipments. Many of these products have been pioneered by Supreme.

A case in point is the creation of a low compression set Filler Board especially for Expansion Joints applications. Till then, you had to make do with lesser solutions which were bitumen and board based.

Supreme's Construction Accessories Division offers solutions in the following specialized civil applications

- Expansion joints for Roads and Buildings
- Waterproofing membranes for slabs and walls
- Back-up to sealants and Over-deck insulation
- Bond Breakers between concrete and shuttering and many more....

## Sound / Heat Insulation

Energy is the single largest operating expense and accounts huge expense for commercial buildings each year. At our Insulation Division, we offer customized solutions specifically for the insulation requirements of various industries, with a sole purpose of improving the energy efficiency, and thereby helping in conserving energy. Here, our team of experts with multi disciplinary experience will plan, procure, execute the packaging requirements, and then transport your material to the destination, safely and securely.

Supreme's Thermal Insulation Division offers solutions in the following areas

- Ducting
- Piping and Flooring Insulation
- Under-deck Insulation
- Over-deck & Wall Insulation

## Agricultural Shade Nets

### APPLICATIONS FOR AGRO SHADE NETS

Due to its multitude of benefits, Shadenets find a very strong place in:

- Floriculture, Indoor plants, fruit plants nursery
- Tea, Coffee, Cardamom, Pepper, Spices, Vegetables growing
- Forest nursery growing
- Cattle sheds, Fish Ponds, Poultry Farming etc
- General purpose shading and Soil support
- Drying of various Agro products
- Wind breaker applications
- As protection fabric in construction sites

### Bird Nets/Insect Nets

GWRL is one of the largest producers of HDPE nets in the world. The impeccable fishing nets it manufactures at its modern, integrated manufacturing facility are sold in more than 40 countries in the world.

A seamless integration of technology, manufacturing facilities, trained operators, engineers, best shop floor management practices means that you get product, which is peerless. We distribute Garware Nets of different sizes and also fabricate into sizes to meet your need.

- Knot size
- Knot stability
- High knot strength

**Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.**

# G.K. UDYOG

ONE STOP FOR PACKAGING SOLUTIONS

G.K. has been a brand for over a 3 decades. Started in 1975 in Peenya Industrial Area in Bangalore, we have been serving customer needs and striving to better them continuously. Started functioning with an objective of providing durable packaging materials, G K UDYOG has set the benchmark of quality in this sphere of business. The Bangalore based company is well known distributor, wholesaler and promoter of excellent packaging material that comprises of EPE foam, Air Bubble film, Stretch film, Adhesive tapes, Corrugated Rolls, EPS Sheets(Thermocole), Heat and Sound insulation products, XLPE Sheets and many more. Since the establishment, our business acumen and customer centric approach has led us to the acme in this field.

## Quality Assurance

Main motto of the company is to distribute, wholesale and promote durable and high quality packaging materials in the market. Our quality experts check these products to meet international quality standards before delivery. These products are adequate to provide you complete satisfaction in terms of durability, elegant look and superior quality, which is the main reason behind our success in this business.

## Our Mission

To exceed our customers expectations in quality, delivery, and cost through continuous improvement and customer interaction. We have set ourselves high goals to achieve each year and have a very dedicated team to reach results. Achievement of our results is attributed to our wide range of customer base which is always on the expansion mode.

## Markets we Serve

Ranging from Corporates, Public (defence and government agencies like DRDO, HAL, ADE, BEL, BHEL) and Retail Market, we have customers from all fields who have helped us in understanding the various requirement for each customer.
